# JULSA service programme

## Linear Quick Center

We have a cutting machine in our own workshop, as well as a large stock of guides, shafts, linear recirculating ball bearings... involves:

- Fast, reliable supply
- Special machining solutions
- Quality approved

## Chains and belts cutting

Specialised and approved workshop for the cutting and assembly of special chains. We also have a belt cutting machine and a large stock, which allows us to provide a service tailored to your needs.

## ENERPAC Service Centre

We have the official authorized SERVICE CENTRE for ENERPAC products to give after-sale preventive or corrective service.

## Special packaging

We have the best tools to send your order in the best conditions.

- Vacuum packing machine
- Special packaging solutions: Phytosanitary, volumetric...
- Bubble filling, shrink wrapping, strapping...

## Training

We offer online or on-site trainings together with the world's leading manufacturers and our technical specialists. We prepare training courses tailored to your needs.

## Hydraulics and Pneumatics

We supply and assembly pneumatic and hydraulic installations, as well as checking and repairing equipments.

## Bearings & Pillow block

We offer the **top brands** in the market, whose products are the best solution for your applications thanks to its innovative capacity and technical excellence. Julsa has one of the largest European stocks in terms of quantity and variety of products.

DICTOMATIK  
Any seal. Any time.

GLYCODUR®

McGILL®

MOTION & CONTROL™

- Ball Bearings
- Spherical roller Bearings
- Stainless steel ball bearings
- Needle bearings
- Needle roller and cage
- Cup needle
- Rollers
- Bearing housings
- Radial insert ball bearings
- Cast iron pillow blocks, thermoplastic housing and stainless steel

- Adapter sleeves, nuts, washers, locating rings
- Steel and stainless steel balls
- Cylindrical roller and needles
- Slewing rings
- Bushings
- Plain Bearings
- Special bearings and according to drawing

## Linear

Our technical specialists take care of the market in all product development stages: design, implementation and after sales service. We have cutting machine in our own workshop Linear quick Center along with a large stock of guides, shafts, linear recirculating ball bearings.

NIPPON BEARING

PBC Linear™

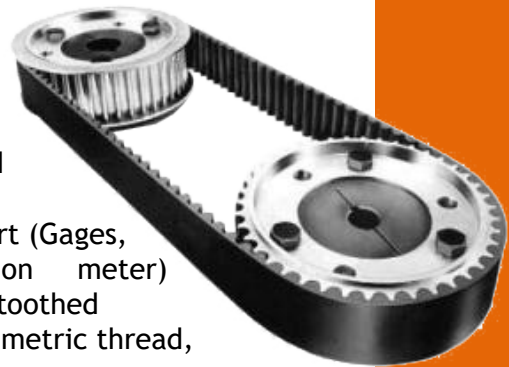

- Linear guides
  - Ball: With cage and cageless
  - De rodillos con jaula
- Recirculating ball bushings
- Spindles: laminates, rectified, trapezoidal threaded
- Rack and precision gears
- Spur and helicoidal teeth of treated and rectified racks
- Telescopic slides
- Linear Actuators

# Belts & Pulleys

When we talk about transmission belts, our brands are synonymous of lifetime and efficiency, always getting excellent performance in those applications which require power transmission and ensuring low energy consumption. Julsa has the largest stock of belts and pulleys in Spain. We also have a belt cutting service, to attend the needs of our customers.

- V-belts (Classic, tight, open side, multiple, coated)
- Chloroprene single and double toothed flat Timing Belts (Trapezoidal, round, parabolic, spiral)
- Polyurethane flat Timing Belts (Metric or inch, endless, cut per meter or endless welded)
- Special Timing Belts
- Special coatings (With mechanical processing, designed for transport or positioning)
- Special Belts (Hexagonal, grooved, polyurethane trapezoidal, round belts, etc.)
- Accessories Support (Gages, laser aligner, tension meter)
- Pulleys (Toothed, toothed conical cap, HTD, metric thread, trapezoidal)

*Belt cutting machine Cut 2*

## Chains & Sprockets

Julsa has a large stock of chains and sprockets from the main manufacturers, products with a high manufacturing standard suitable for all types of sectors and industrial applications. **Specialised and approved workshop** for the cutting and assembly of special chains.

- Roller chains: Single, double or triple roller chains, special attachments, pins or hollow, agricultural axis.
- Stainless steel roller chains
- Screen Chain: Boards AL series, BL or LL
- Galle chains and conveyor chains
- Sprockets: ISO, Standard ASA, taper bushing, tensioners
- Stainless sprockets
- Durogliss guides
- Slatband and plastic chains

## Transmission

Julsa power transmission range includes an assorted stock; electric motors, gear boxes and couplings among others. Our technical specialists advise customers on the right choice for each application of the engine and gearbox.

- Electric engines: Three-phase, self-braking phase or asynchronous.
- Gearboxes: Endless slew ring, endless cubic slew ring, Orthogonal, coaxial, parallel axes, pendulum
- Conveyors: Rubber, thermoplastic, modular, metal net, Teflon
- Links
- Freewhels
- Pressure Rings
- Vibrator engines

# Pneumatic / Hydraulic

We offer the world's leading brands in equipment and high pressure tools as well as the most extensive range and a wide stock. In Julsa you will find the optimal technical solution for any application thanks to the extensive experience of our specialists.
